SMOKY CHIMNEYS.

SUTER'S VENTILATING WIND-GUARD,

(Registered 1850.)

Is a certain cure for Smoky Chimneys, and will effectually Ventilate Close Rooms or Buildings.

EXHIBITED AT THE GREAT EXHIBITION, 1851.

Price 15s. Made of strong Zinc, to fit 10-inch Chimney Pot, and made to any size or shape, at a small additional charge.

This Guard, from its peculiar construction and novel action, entirely prevents the external air entering the top of the Chimney, and exhausts the air in the Chimney, causing a continuous up draught; thereby perfectly ventilating any rooms or buildings where there is no fire, and effectually preventing the return of smoke into any room where there is a fire.

TESTIMONIALS.

"City-road, June 2nd, 1853.

"Sir,—Your Ventilating Wind Guards have been amply tested on our premises for the last three months, and they have given us great satisfaction; we consider them a cheap, simple, and effectual remedy.

"(Signed) "S. MORDAN and CO."
